

BIG MODULAR MOBILE PLANT

DOUBLE WATER TREATMENT AND BOTTLING PLANT - SL2000

Water is the most important natural resource of the planet and is the fundamental element for human life. In order to guarantee efficiency of every human activity it's necessary to provide the right daily quantity of water to everyone.

To rehydrate the body and to produce excellent soft drinks, water must be fresh, pure and rich in minerals.

SERAM BIG MODULAR MOBILE PLANTS can be used with any kind of water; the plants are able to treat both fresh and salt water coming from lakes, rivers, sea, wells or marshes.

Thanks to modular construction, based on standard 20" and 40" containers, **SERAM MODULAR BIG MOBILE PLANTS** are the ideal solution as they can be configured on user's need to purify water and to produce every kind of soft drinks; they are fully transportable by truck and can be installed in small areas.

SERAM BIG MODULAR MOBILE PLANTS are engineered for heavy and constant daily production; to operate a small staff and low maintenance are required with the consequent reduction in exercise costs .

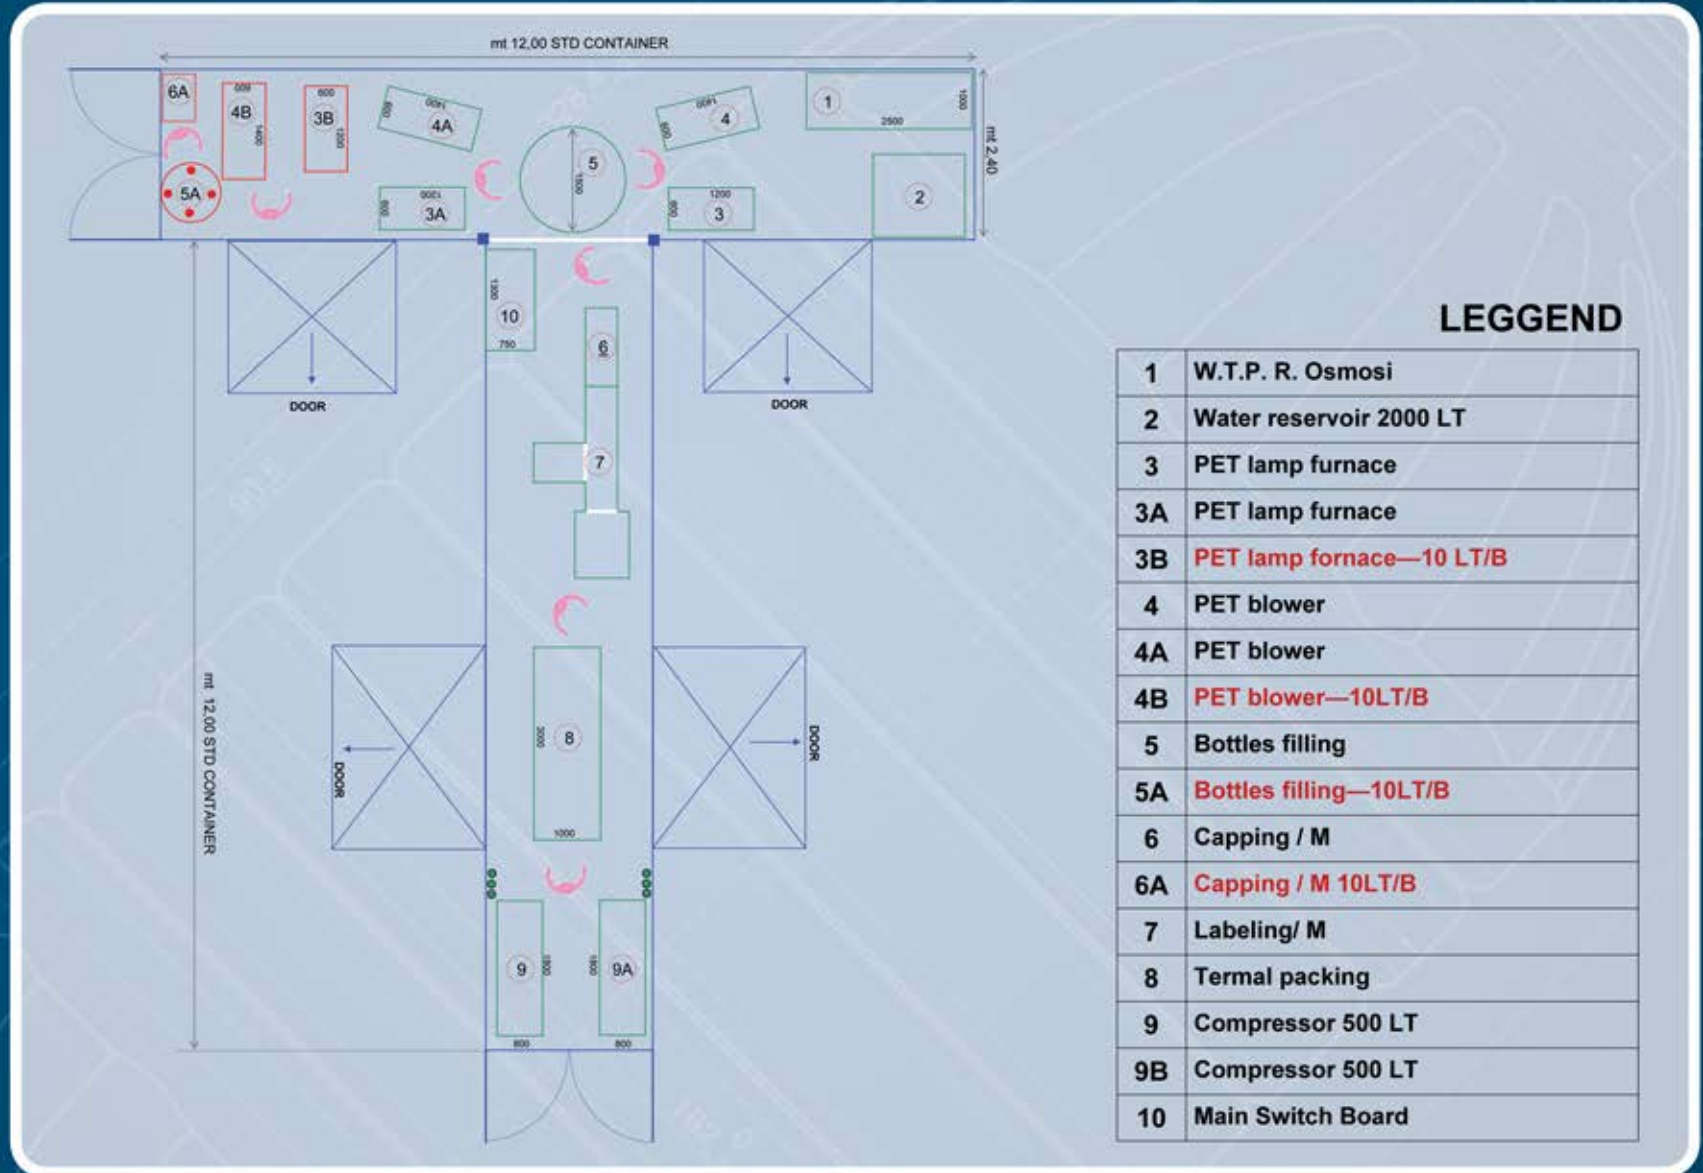

SCHEMATIC D.W.G. FOR DOUBLE LINE WATER TREATMENT & BOTTLING PLANT

MODEL
SL 2000

USE FOR
FLAT WATER

CAPACITY
2000 LT/HR

FITTED ON
40' CONTAINER

LEGGEND

1	W.T.P. R. Osmosi
2	Water reservoir 2000 LT
3	PET lamp furnace
3A	PET lamp furnace
3B	PET lamp fornace—10 LT/B
4	PET blower
4A	PET blower
4B	PET blower—10LT/B
5	Bottles filling
5A	Bottles filling—10LT/B
6	Capping / M
6A	Capping / M 10LT/B
7	Labeling/ M
8	Termal packing
9	Compressor 500 LT
9B	Compressor 500 LT
10	Main Switch Board
